

PRODUCT DATA SHEET

BAGGES PGF-1

Properties																
Composition	BAGGES PGF-1 Sealing rope produced from texturised glass yarn with its construction varied to match the required compressibility. BAGGES PGF-1 Is characterized by a high degree of flexibility for a perfect fit around small radii. E-glassfiber.															
Applications	BAGGES PGF-1 Is used as thermal insulation for static sealing applications in dry environments. It is widely used as seals for hatches and doors in industrial boilers, furnaces, ovens, solid-fuel (e.g. wood-burning) stoves, as well as seals for gas appliances, heat processing equipment and domestic boilers.															
Temperatur range	Up to 600°C
